

Product Bulletin

USB UTP EXTENDER BOX TYPE

DESCRIPTION:

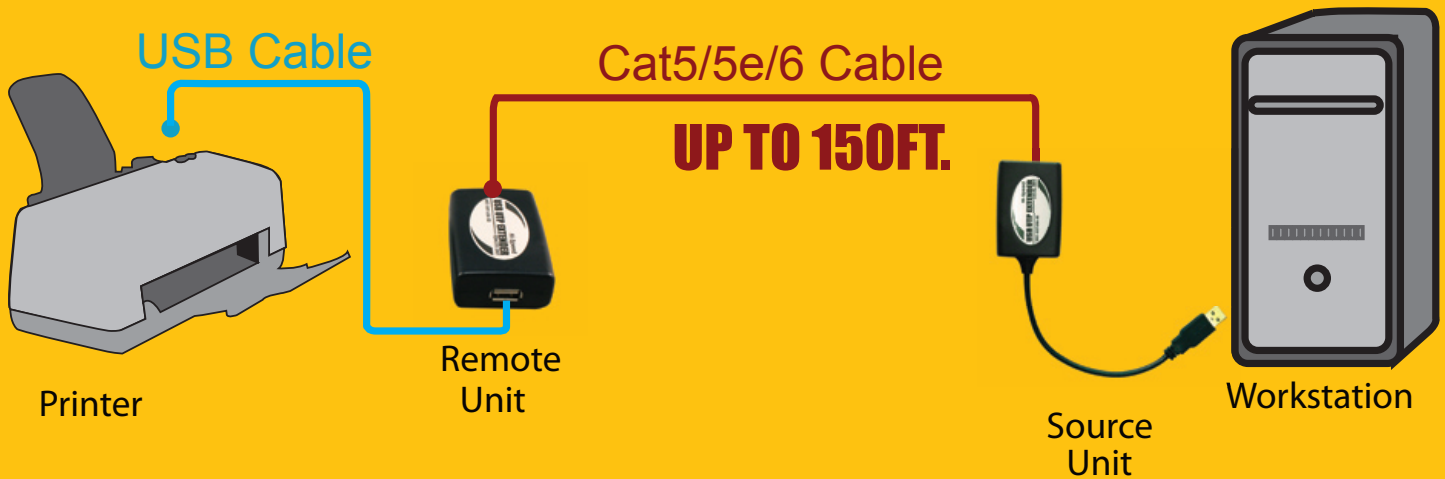

Extend your USB peripherals up to 50m using regular CAT5/5e/6 cable. This repeater cable has built-in buffer and actively regenerates the signals to preserve data integrity. Active repeaters provide maximum flexibility for USB devices and ideal for security and surveillance video, PC digital audio systems and other peripherals with USB interface that are beyond the reach of regular cables.

FEATURES:

- Extends USB signal using regular CAT5/5e/6 cable up to 300 ft.
- Fully compliant with USB 1.1 specification
- Supports any full-speed or low-speed USB devices
- 100% compatible with USB hubs and other devices
- No software driver, no power needed
