

VGA Cat5 Extender/Splitter

Version A

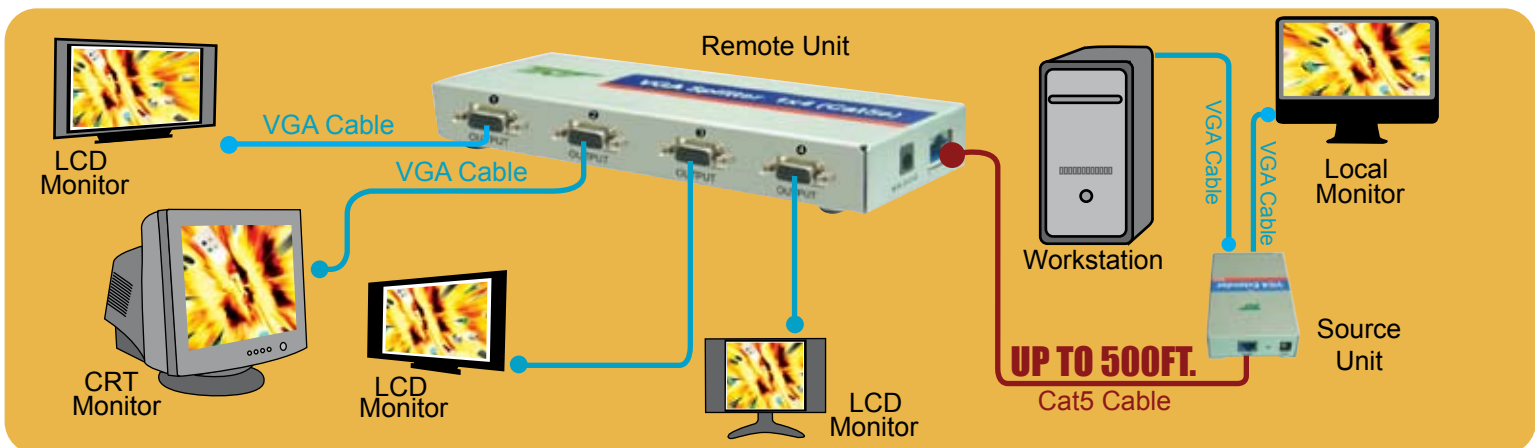

Description

A point-to-point real-time video extender/Splitter, the R02-SPL-C5E-104A transmits high quality video signal from any type of player/computer to any type of electronic display device over UTP CAT5, CAT5E, or CAT6 cable. Video content transmit up to 150m/500ft from the player to a distant projector. An additional monitor can be connected to the local unit so that you can view the transmission even when the target viewer is located outside of your immediate environment.

Features

- Connects computers with VGA
- Allows up to 4 VGA display monitors to be connected at the same time to the same video source
- Simultaneous display at local and remote locations
- Maintains highest video resolution up to 1920 x 1200
- Installs in seconds
- VGA Amplifier Bandwidth: 250 MHz
