

VGA Splitter

Description

Simultaneously distribute any video signal to up to 4 different video outputs, while maintaining vivid picture quality. The VGA splitter is powerful, yet easy to use. There is no software or complicated interface cards to install. It is perfect for classrooms, exhibits, trade shows, monitor testing, and demonstrations and multi-media presentations. The VGA Splitter is also ideal for broadcasting video information such as news headlines, and stock prices.

Features

- Connects computers with VGA graphics up to 4 VGA compatible monitors or projectors
- Allows up to 4 VGA display monitors to be connected at the same time to the same video source
- Simultaneous display at local and remote locations
- Maintains highest video resolution up to 1920 x 1200
- Installs in seconds
- VGA Amplifier Bandwidth: 250 MHz
