

Power adapter
 Input: 110–240V
 Output: 9V, 1.5A

Specifications:

1. Single Link Range: 1080i/1920x1080
2. Vertical Frequency Range: 50/60Hz
3. Output Connector: Type HDMI 19pin
4. Power Consumption: 15 Watts (max.)
5. Power Supply: 9V DC
6. Dimensions: 102.0(L) x 93.3(W) x 24.0(H)
7. Shell Color: Black

Description:

The Component to HDMI converter is a device that allows analog devices to be integrated seamlessly into a digital display. It also takes analog audio and encodes it onto the HDMI signal for the full HDMI video and audio effect. Since it is upconverting in this situation, you will be getting the best possible quality from your component source. The conversion box will scale the image so that it comes out in High Definition resolutions, rather than simply stretching a low-def image.
